When a strange blight crept over the area and everything

Rachel Carson was born 100 years ago in a small town in western Pennsylvania. Even though she grew up far from the seacoast, she recalled that even as a child she felt "absolute fascination for Renowned author Rachel Carson at her home near Washington, DC, March 1963" By Phyllis McIntosh A Quiet Woman Whose Book Spoke Loudly

Rachel Carson 01 - Arvind Gupta

And I must just mention Rachel Carson, a biologist whose book *Silent Spring* first brought issues of environmental pollution to the attention of the majority of Americans. Her work fueled the passage of the National Environmental Policy Act in 1969; this was the first US law aimed at restoring and protecting the environment.

Rachel Carson's Silent Spring

Her crusade renewed the political power of homeowners and housewives. Most important, her message fundamentally altered the way Americans, indeed citizens of the planet, look upon the living environment. By the eloquence of her prose and rigor of her synthesis, Rachel Carson educated the public and made the life sciences a vehicle.

Rachel Louise Carson

Women Geographers Her extensive awards and honors include the George Westinghouse Science Writing Award in 1950; the National Book Award in 1951 for *The Sea Around Us*, a Guggenheim fellowship, and numerous medals, honorary citations, and degrees. Carson's mother led her to a love of nature, which she successfully combined with her desire to

APES- Excerpt from "Silent Spring" by Rachel Carson

-Rachel Carson vividly explains the possible outcome of our ecologically damaging actions, in which plants wilt along the streets, animals die from disease, birds emigrate away, pollination ceases, and animals seldom mate. Her observations resemble that of a wasteland.

Environmental Activism

RACHEL CARSON 1907-1964 The marine biologist Rachel Carson was born far from the sea, in the small town of Springdale, Pennsylvania. Carson was a sickly child who often had to remain at home, where her mother reared her. Throughout her youth and in her college years, Carson was a studious, but quiet and aloof, person. Carson entered

Silent Spring - UCSB

IN 1958, when Rachel Carson undertook to write the book that became *Silent Spring*, she was fifty years old. She had spent most of her professional life as a marine biologist and writer with the US Fish and Wildlife Service. But now she was a world-famous author, thanks to the fabulous success of *The Sea Around Us*, published seven years before.
