The Work and Wages of Single Women, 1870-1920

mon for a young woman to work full-time in her parents' home instead About 35 percent of all urban, single women 16 to 24 years old were neither at school nor working outside their homes in 1900, although this figure declined to about 5 percent by 1930 Therefore a large fraction of

Gender, social class, and women's employment

wage-earning women tend to work in occupations high female representation [52], but they do not reap career-enhancing benefits from the presence of same-sex schedules peers [53] Mandatory, non-standard work are disproportionately concentrated in low-wage service jobs, imposing family, social, and health-related class penalties on lower class

Victorian Women and Their Working Roles

Victorians believed that a woman's proper and only place was to be within a household environment. The women were expected to marry, have children, and keep a nice household. Those were the only acceptable roles for women during that era. Women that were involved in the work place were viewed as being damaged and somehow less worthy.

Hormones: A guide for MTFs

hormones work for trans people, it is helpful to understand how testosterone works in "typical" (non-intersex, non-trans) men's bodies, and how estrogen and progesterone works in "typical" women's bodies. We keep these terms in quotes to emphasize that they are artificial and imperfect concepts.
